

21CSC402P – REPORT WRITING

Unit – III Communication

Communication Skills – Writing Assignments

1. Clarity

- Use simple, direct, and precise language.
- Avoid unnecessary jargon unless the subject demands it.
- Each sentence should express **one clear idea**.

2. Structure & Organization

- Follow a logical flow: **Introduction** → **Body** → **Conclusion**.
- Use headings, subheadings, bullet points, or numbering for readability.
- Arrange content in a way that builds understanding step by step.

3. Conciseness

- Be brief and avoid repetition.
- Eliminate filler words (like "very", "actually", "in order to").
- Stick to the word limit given in the assignment.

Communication Skills – Writing Assignments

4. Tone & Formality

- Maintain an **academic and professional tone**.
- Avoid slang or overly casual expressions.
- Write in the **third person** (unless instructed otherwise).

5. Grammar & Vocabulary

- Use correct grammar, punctuation, and spelling.
- Choose appropriate vocabulary that suits the subject.
- Vary sentence structure to avoid monotony.

6. Referencing & Evidence

- Support arguments with facts, examples, and references.
- Use proper citation styles (APA, MLA, Harvard, etc.) as required.
- Plagiarism must be avoided — always give credit.

7. Presentation

- Neat formatting (font, spacing, margins).
- Use diagrams, charts, or tables where necessary.
- Ensure the assignment is easy to read and visually appealing.

Communication Skills – Writing Assignments

Example of Applying Communication Skills in Assignments

Poor writing:

- "There are many advantages of communication skills, they are important in life, they help people."

Improved writing (with communication skills):

- "Effective communication skills play a vital role in personal and professional success. They enable individuals to express ideas clearly, build stronger relationships, and enhance career opportunities."

Oral communication activities

- Oral communication activities are interactive exercises that help learners practice speaking, listening, and presenting ideas effectively. These activities are important in education because they improve confidence, clarity, and fluency while also preparing students for real-life communication situations.

Types of Oral Communication Activities

Class Discussions

- Students share their thoughts on a specific topic.
- Encourages active participation, critical thinking, and respect for others' opinions.

Debates

- Two groups argue “for” and “against” a topic.
- Develops reasoning, persuasion, and confidence in public speaking.

Group Analysis of Problem Situations

- Teams work together to analyze a problem and suggest solutions.
- Builds teamwork, problem-solving skills, and collaborative speaking.

Oral communication activities

Formal Oral Presentations

- A structured presentation or speech on a subject.
- Improves organization of ideas, use of visuals, and professional speaking skills.

Role Plays

- Acting out real-life situations like interviews, customer service, or workplace conversations.
- Enhances creativity, empathy, and practical communication.

Storytelling / Narration

Sharing stories, events, or case studies.

Strengthens imagination, memory, and engaging expression.

Extempore Speaking

Speaking on a random topic with little preparation.

Boosts quick thinking and fluency.

Panel and Group Discussions

Multiple speakers exchange views on a subject in front of an audience.

Helps in critical thinking, leadership, and cooperative communication.

Panel / Group Discussions	To share and compare views in a structured setting	Leadership, cooperation, analytical thinking, respect for diverse opinions

Oral communication Tools

Communication Tools Used in Oral Activities

To make oral communication more engaging and effective, various tools are employed:

Verbal Tools: Clear speech, tone of voice, vocabulary, and pronunciation.

Non-verbal Tools: Body language, gestures, eye contact, and facial expressions.

Visual Tools: PowerPoint slides, charts, diagrams, posters, and videos.

Digital Tools: Projectors, microphones, smart boards, online platforms (Zoom, MS Teams, Google Meet).

Oral communication – Cloud Based

Role in Communication

Instant Messaging & Chat – Enables quick communication between team members.

Video Conferencing – Facilitates face-to-face communication virtually.

File Sharing & Co-Editing – Allows multiple users to edit and review documents simultaneously.

Task and Project Management – Keeps communication clear through assigned tasks, deadlines, and progress tracking.

Notifications & Alerts – Keeps everyone updated with real-time changes.

Examples of Cloud-Based Collaboration Applications

Google Workspace (Docs, Sheets, Drive, Meet) – real-time document editing and video calls.

Microsoft Teams – combines chat, video meetings, and file storage.

Slack – team messaging with channels and app integrations.

Zoom – video conferencing with collaboration features.

Trello / Asana – project management and team communication tools.
