

UNIT 3

LIFE SKILLS

What is Skills?

- The capability to perform something efficiently is known as skill, A skill is a learned ability to do something well. Hence the qualities that individual can develop to lead a success.

A large orange circle on the left side of the slide, partially cut off by the edge.

Why Life Skills is required

- Enhances Decision-Making
- Improves Problem-Solving
- Boosts Communication Skills
- Encourages Critical Thinking
- Builds Emotional Intelligence
- Promotes Adaptability
- Enhances Financial Literacy
- Improves Time Management
- Develops Leadership Skills
- Fosters Self-Confidence
- Encourages Social Awareness

Life Skills History

- The **1989 Convention on the Rights of the Child (CRC)** linked life skills to education, stating that education should be directed towards the development of the child's fullest potential.
- The **1990 Declaration on Education for All (EFA)** included life skills among the essential learning tools for **survival, capacity development and quality life**.
- The **2000 Dakar World Education Conference on EFA** also documented that all young people and adults have the “**human right to benefit from an education that includes learning** to know, to do, to live together and to be and included life skills in goal 3 which talks about ‘**promotion of life skills for young people and adults**’ and goal 6 which highlights ‘improvement of the quality of education in all aspects’, aiming for a situation where men and women, boys and girls can achieve excellence.”

Life Skill?

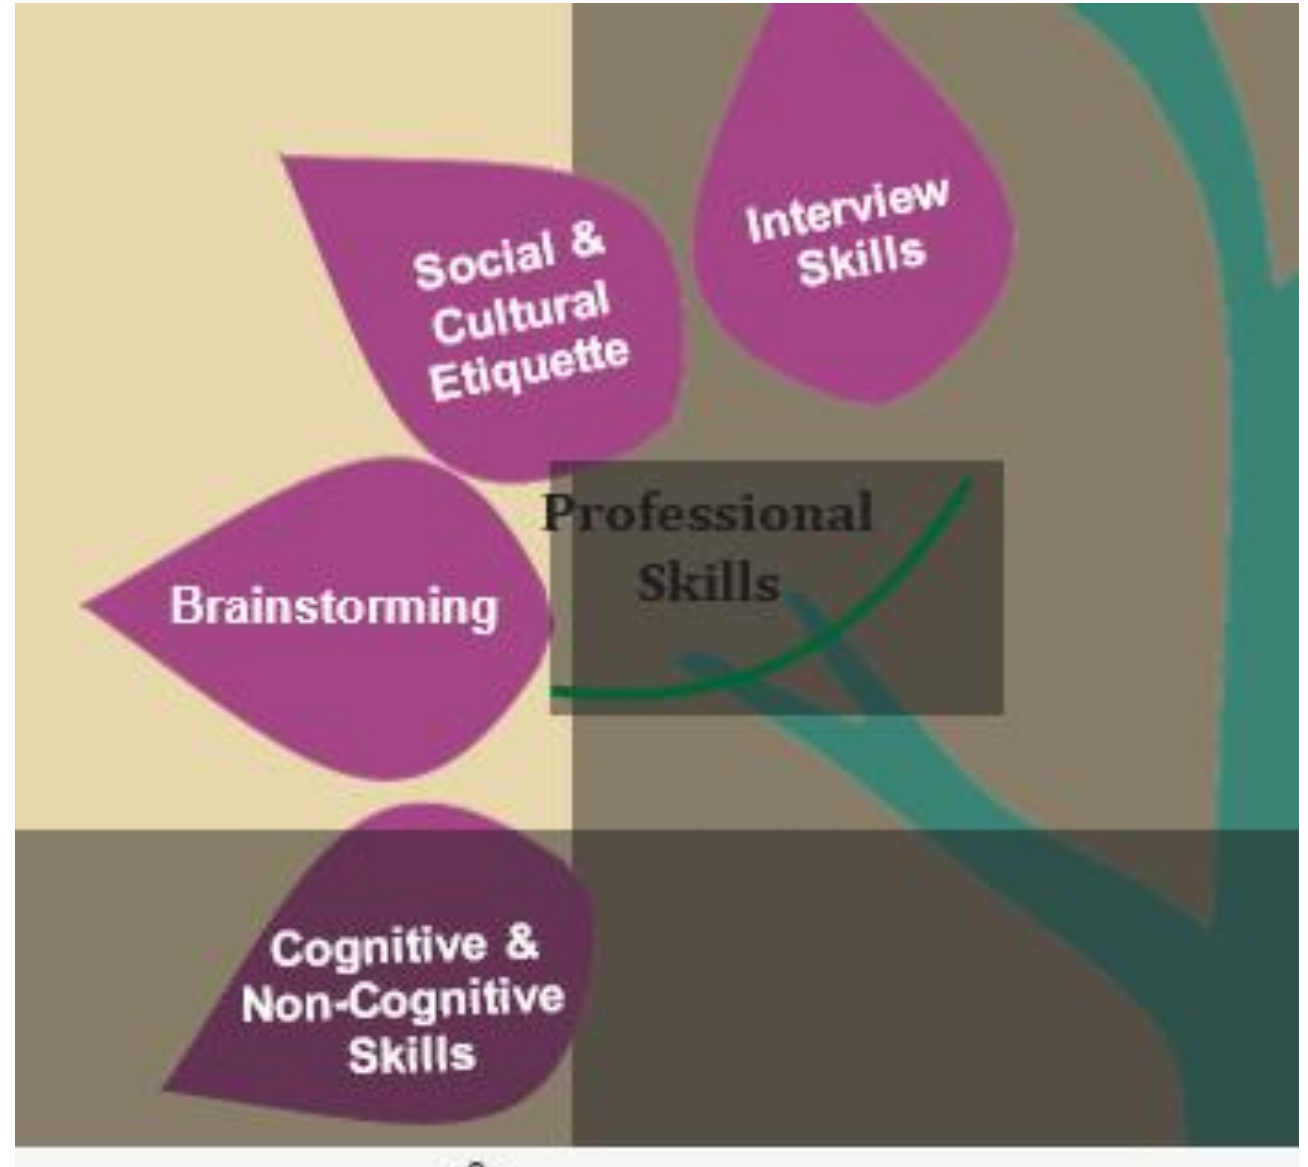

- World Health Organization has defined life skills as, "**the abilities for adaptive and positive behaviour** that enable individuals to **deal effectively with the demands and challenges of everyday life**".
- Life skills with responsible personal decision-making and the capacity to make appropriate behavioural choices for a healthier life
- Life skills are essentially those abilities that help promote mental well-being and competence in young people as they face the realities of life.
- Positive ACTION to Protect Themselves & PROMOTE health and Positive social relationship.

Ten core life skill strategies and techniques – Identified by UN Organisations (WHO etc)

1. Problem solving,
2. Critical thinking,
3. Effective communication skills,
4. Decision-making,
5. Creative thinking,
6. Interpersonal relationship skills,
7. Self awareness building skills,
8. Empathy, and
9. Coping with stress and
10. Coping with emotions.

Self-awareness, self-esteem and self-confidence are essential tools for understanding one's strengths and weaknesses

Life Skill – Skills for Professional Development

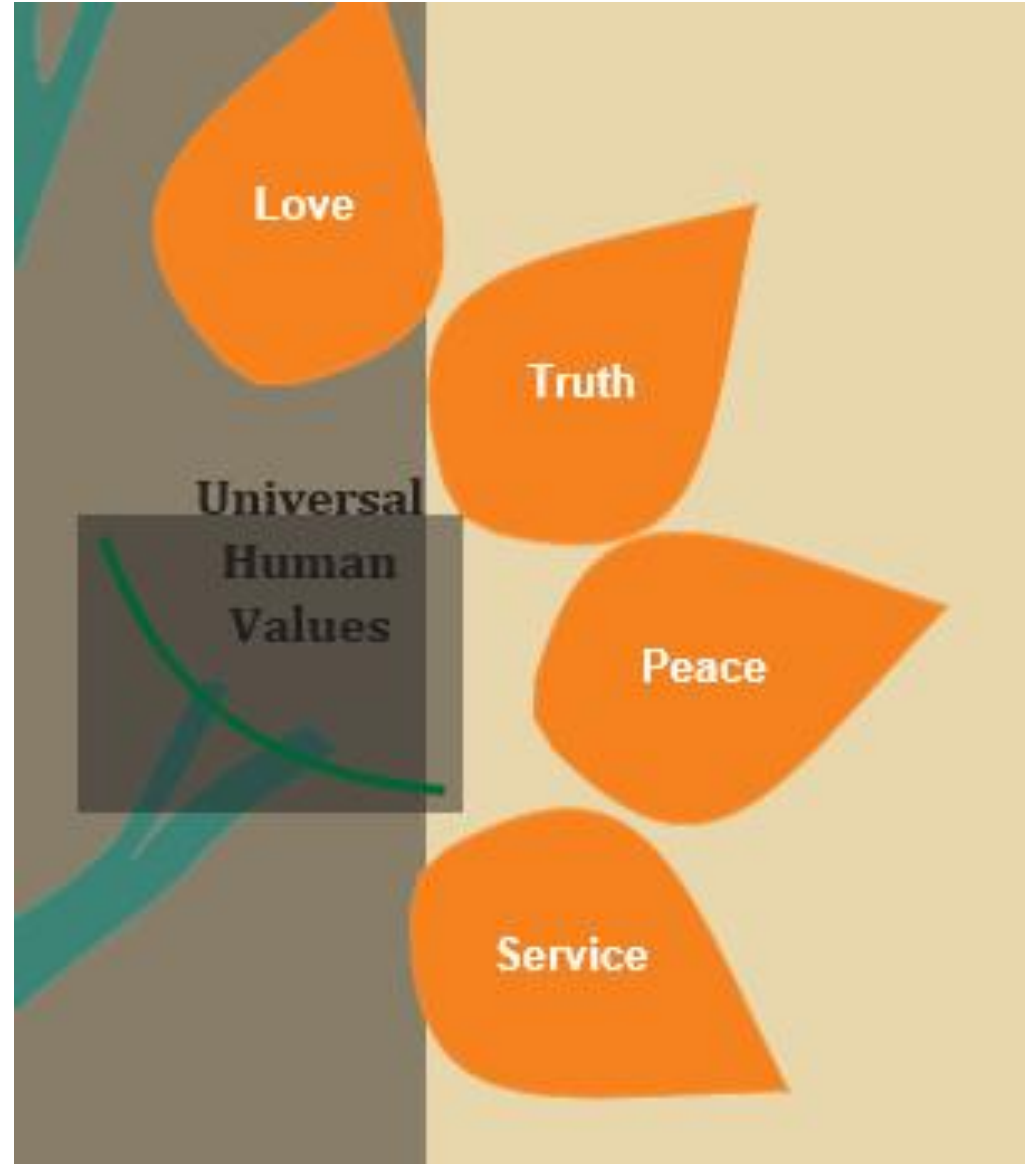

Life Skills – Communication

Life Skills – Leadership and Management

Life Skills – Universal Human Value

Interpersonal communication

- **Interpersonal Communication** is the process of **exchanging information, feelings, and meaning between two or more people through verbal and non-verbal methods**. It involves direct, face-to-face interaction where participants actively send, receive, and interpret messages.
- Simple Definition : Interpersonal communication is the sharing of thoughts and feelings between people through conversation and behavior.

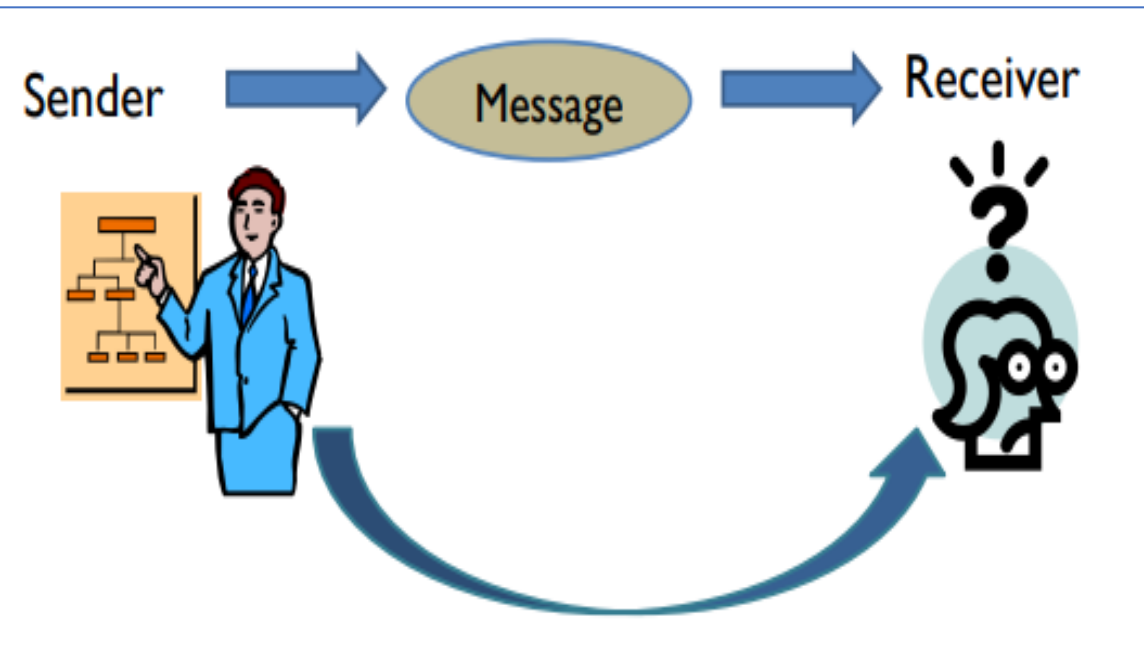

Key Points for Interpersonal communication

- **Occurs between individuals** (small groups)
- Includes **spoken words, tone of voice, body language, facial expressions, gestures, and listening**
- Is **dynamic and reciprocal** — both parties influence the conversation
- Critical for building relationships, resolving conflicts, and effective collaboration

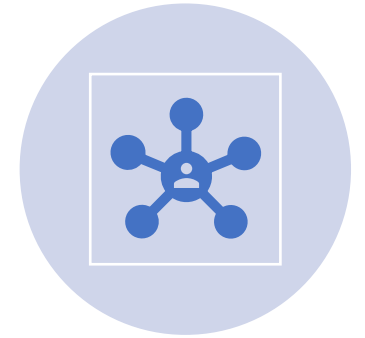

Communication – The Key Elements

- WHAT IS COMMUNICATION?

Communication is the process of expressing our ideas and feelings with other people.

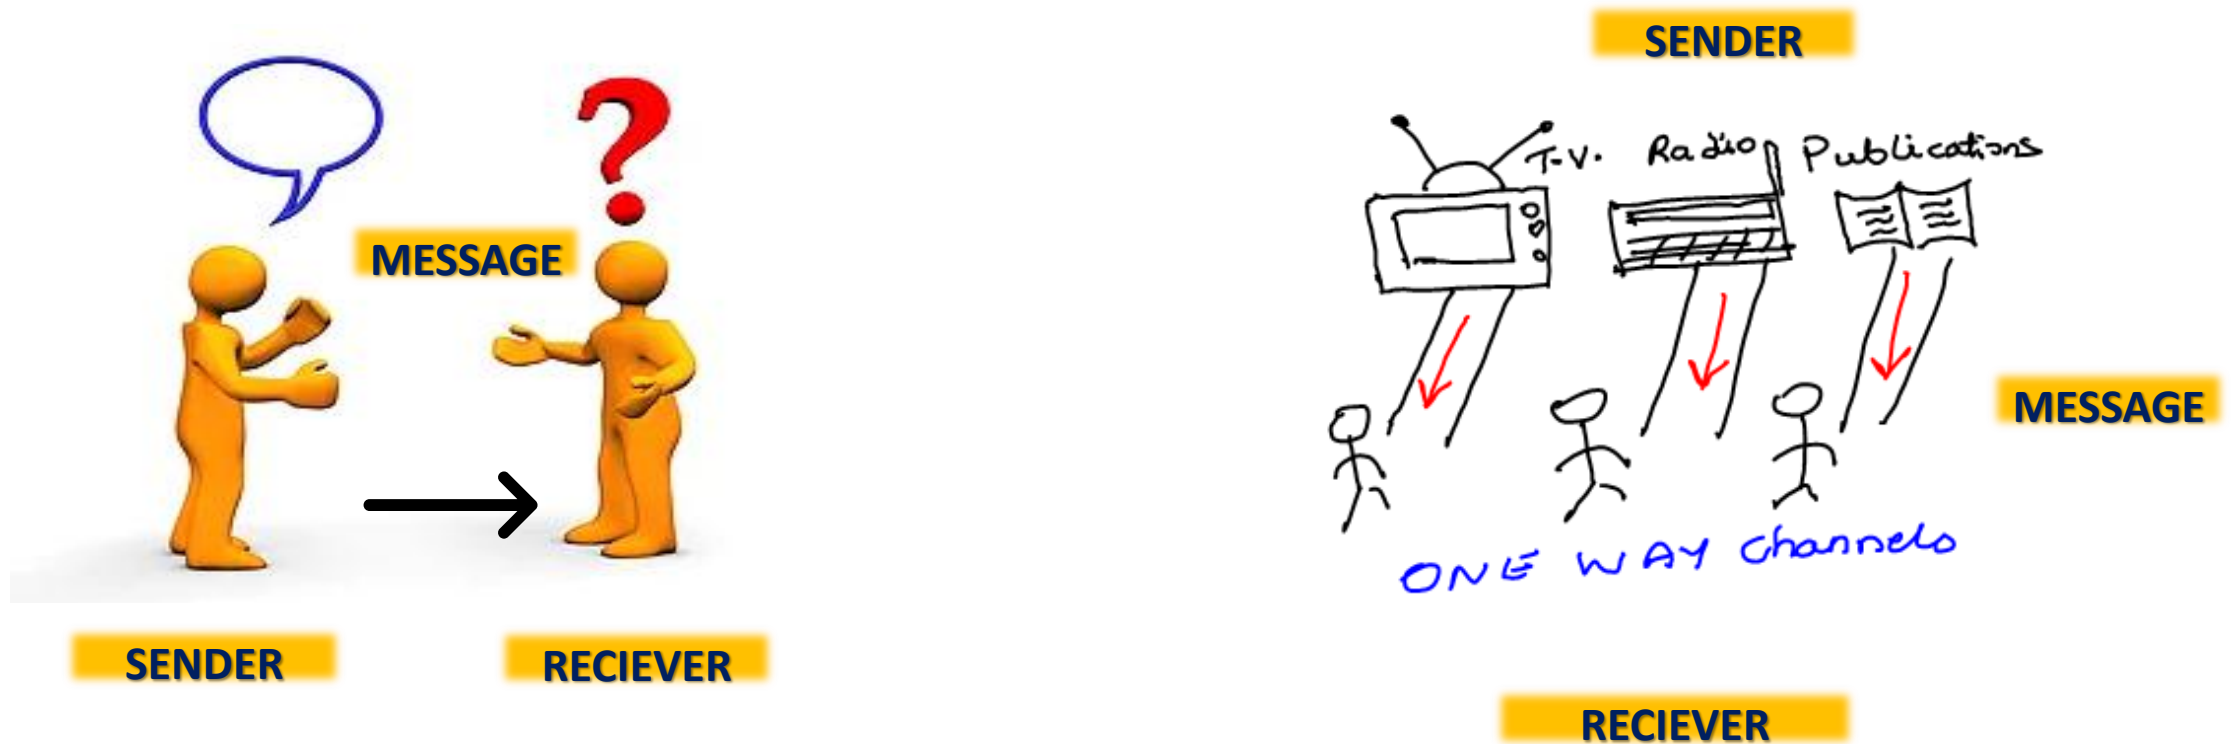

It is a simple act of transferring information from one place, person or group to another.

Types of Communication

- ☐ One way communication
- ☐ Two way communication
- ☐ Verbal communication
- ☐ Non-verbal communication
- ☐ Formal and Informal communication
- ☐ Visual communication
- ☐ Tele communication and internet

One way Communication

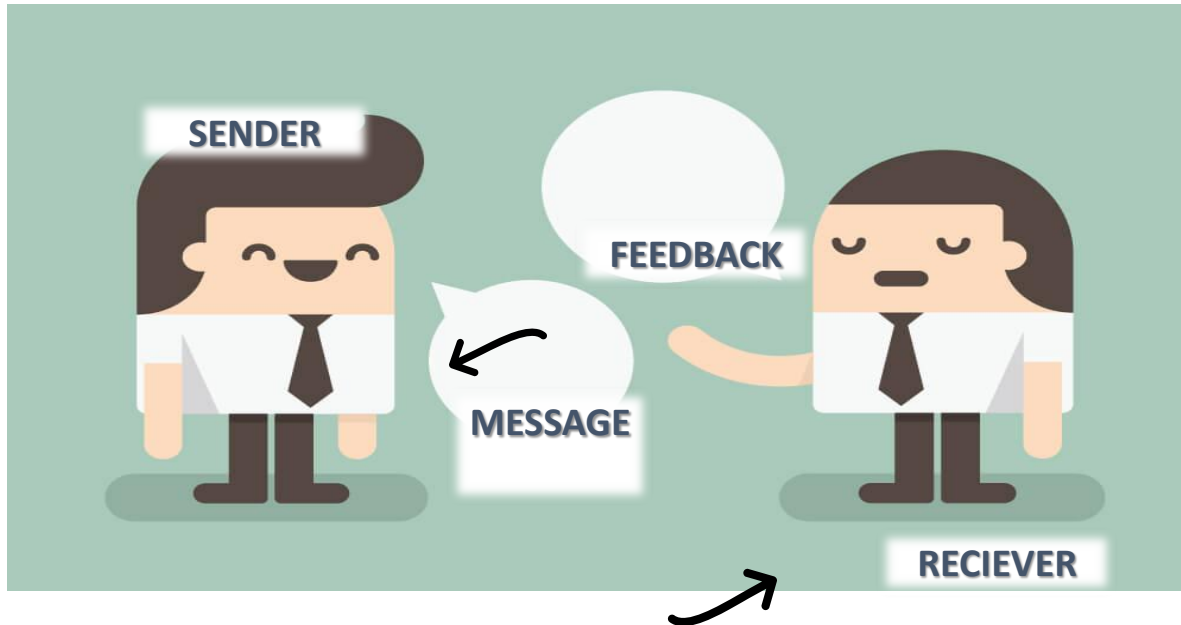

A sender delivers a message to the receiver but nothing comes back to the sender.

Examples: Radio, Television, Poster, Banner, Rallies by political leaders etc.

TWO WAY COMMUNICATION

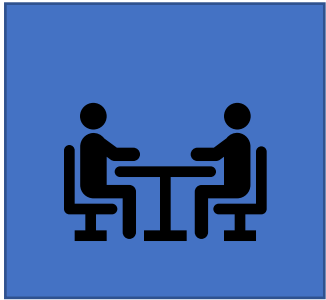

A sender delivers a message and the receiver sends response or feedback to sender's message.

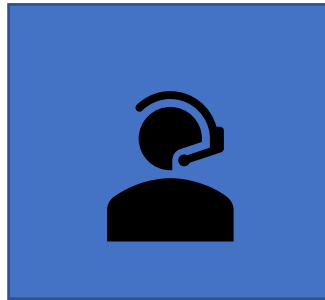

Example: Inter-Personal Communication, discussion, group meeting, talk shows etc.

VERBAL COMMUNICATION

Verbal communication is the sharing of information between two individuals using words

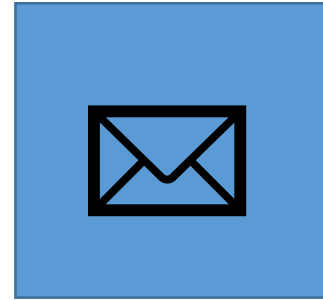

Face to Face

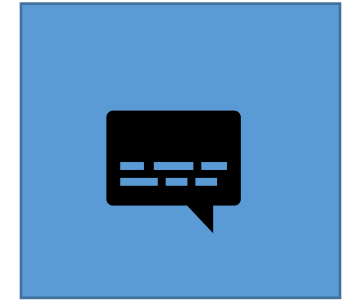

Telephonic Conversation

One to Group

E-Mail

Text Message

Oral Communication

**Written
Communication**

NON - VERBAL COMMUNICATION

Nonverbal communication is the transmission of messages or signals through a nonverbal platform

Facial Expressions

Eye Contact

Gestures

Body Posture

Tone of Voice

Formal & Informal Communication

INTERPERSONAL SKILLS:

INTERPERSONAL SKILLS:

- YouTube Video: [What are Interpersonal Skills | Explained in 2 min \(youtube.com\)](#)
- Interpersonal skills are the behaviors and tactics a person uses to interact with others effectively. People use interpersonal skills all the time when dealing with others, whether in the workplace, in social situations, or within a family.

7 – Essential Elements of Communication Skills

1. **Listening** : Strong observational skills to fully understand the message being conveyed.
2. **Non-Verbal Communication**: Body language like posture, gestures and eye movement
3. **Being Clear**: Choosing the right words to deliver a message that's easy to understand
4. **Being Concise**: Using fewer, well-chosen words to convey your message.
5. **Being Confident**: The right message with the appropriate non-verbal communication
6. **Being Personable**: A friendly tone and a simple simile can go a long way
7. **Being Patient**: Being composed and not rushing when conveying your message.

Activities for Communication

1. Communication whisper
2. On the Spot Delivering messages
3. Two minutes Reading
4. Listening to a speech and briefing it out.
5. Playing a puzzle.
6. Cracking a riddle.
7. Role play on interpersonal communication (IPC)

Reading Two Mins

- **The Power of Empathy**

- Empathy is the ability to understand and share the feelings of another. It's a crucial skill that helps build strong, meaningful relationships and fosters a supportive community. Here are a few ways empathy can make a difference:

- 1.Improves Communication:** When we empathize with others, we listen more attentively and respond more thoughtfully. This leads to better understanding and fewer conflicts.
 - 2.Strengthens Relationships:** Empathy allows us to connect on a deeper level, showing others that we care about their experiences and emotions.
 - 3.Enhances Problem-Solving:** By seeing things from another's perspective, we can come up with more effective and compassionate solutions to problems.
 - 4.Promotes Kindness:** Empathy encourages acts of kindness and generosity, creating a more positive and supportive environment.
- Practicing empathy can be as simple as actively listening, asking open-ended questions, and showing genuine concern for others' well-being. It's a small effort that can lead to significant positive changes in our personal and professional lives.

Reading for 2 Mins: **The Power of Positive Affirmations**

- Positive affirmations are simple, yet powerful statements that can help reshape your mindset and improve your overall well-being. Here's why they matter:
- 1. **Boosts Self-Esteem:** Repeating affirmations like "I am capable" or "I am worthy" can help build your confidence and self-worth.
- 2. **Reduces Stress:** Positive affirmations can help counteract negative thoughts, reducing stress and promoting a more relaxed state of mind.
- 3. **Enhances Resilience:** By focusing on positive statements, you can build mental resilience and better cope with challenges.
- 4. **Improves Mood:** Regularly practicing affirmations can lead to a more positive outlook on life, improving your overall mood and happiness.
- To get started, choose a few affirmations that resonate with you and repeat them daily. For example:
- "I am strong and capable."
- "I deserve happiness and success."
- "I am in control of my thoughts and emotions."
- Incorporating these affirmations into your daily routine can make a significant difference in how you feel and approach life's challenges

Find the Word?

1. TEYID
2. IPXECEERS
3. TIRUNTIONTI
4. SPHENYOTIOR
5. ESSRTS
6. TUIFR
7. EPSLE
8. CLAXTARENOI

1. DIETY
2. EXERCISE
3. NUTRITION
4. HYPERTENSION
5. STRESS
6. FRUIT
7. SLEEP
8. RELAXATION

Empathy

Sympathy vs Empathy

Sympathy

Noun

To acknowledge that someone is distressed.

I'm sorry for your loss.

Empathy

Noun

To actually understand how someone else is feeling.

Empathy

- *Has anyone heard of the word empathy before?*
- **Definition:** *Technically speaking, the “em” means “in” and “path” means*
- *“suffering” – **empathy is simply feeling the suffering of someone else.***
- *More easily put, Empathy is the ability to consider and understand what someone else is going through. **It is putting ourselves in someone else’s shoes.***

Activity: A poor hungry cat searching for food

Empathy – Wrap up

- *People are born with the ability to feel empathy towards others – even if we have not experienced the same exact experience as someone else.*
- *Empathy is the reason people try to help each other.*

Activities for Empathy

1. Cat SEARCHING FOR FOOD .. FEELING COLD
2. Stepping into other's shoes.
3. Activity – Mirror Game
4. Activity: Treating Others Respectfully: Write names of people you respect.. Ways to show respect

Can
anyone
Guess
What is
this?

RESILIENCE

- **Definition:** The American Psychological Association ([2014](#)) defines resilience as “the process of adapting well in the face of adversity, trauma, tragedy, threats or even significant sources of stress

bounce back (resilience recovery time)

Four Types of Resilience

1. Physical Resilience
2. Psychological Resilience
3. Emotional Resilience
4. Social Resilience

Physical Resilience

- *Ability to Meet physical hardship like – Accidents, physical ailments / injuries.*
- *How we adapt – Recover – challenging environment, sustain energy, strengthen and stamina.*

How to Build Physical Resilience:

- *Engaging in physically demanding tasks, Exercise*
- *Maintaining healthy diet and lifestyle,*
- *getting enough sleep*
- *relaxation techniques can help to improve it.*

Psychological Resilience:

- *Ability to meet psychological hardship like – fear, facing uncertainty, loss of a family member, etc...*
- *Coping Strategies to Build Psychological resilience*
 - *Positive thoughts and*
 - *Mental Education programs & well programs*
 - *Relaxation programs*

Emotional Resilience

- *How well we control our emotions reactions and responses to stress & adversity and manage our negative emotions, such as sadness, jealousy.*
- *Emotional resilience will drive through challenges to prevent the negative impact of life.*
- *Coping Strategies:*
 - *Build with Optimism, Emotional awareness & intelligence, acceptance and perseverance*

Social Resilience

- *It is our ability to socially connect with others in our community.*
- *It is about how we relate and respond to others and deal with individual and collective challenges like natural disaster, economic hardship, climate change, together as a community.*
- *It involves certain core elements, such as respect, acceptance, tolerance, diversity and trust.*

An Exercise

- *Think of a tough challenge you faced in the past 1 years.*
- *At that moment, it felt difficult*
- *But now, looking back, how did it shape you? What did you learn?”*
- **Resilience comes from experience and learning, not avoiding hardship.**
- **Why it works:**
- Shifts focus from pain to growth.
- Normalizes struggles as part of success.
- Encourages a mindset that challenges are temporary and build strength.

Bounce back Time

Minor Setbacks (Days to Weeks)

- Example: A failed presentation, a disagreement at work, or missing a deadline.
Bounce-back time: A few days to a couple of weeks with reflection and adjustment.

- **Moderate Challenges (Weeks to Months)**

- Example: Job loss, career setback, or personal conflict.
Bounce-back time: Several weeks to a few months with proactive steps like networking, learning new skills, or seeking support.

- **Major Life Crises (Months to Years)**

- Example: Business failure, divorce, loss of a loved one, or a serious health issue.
- **Bounce-back time:** Months to a couple of years, depending on mental resilience, support systems, and ability to adapt.

The 7 C's of Resilience developed by Dr. Kenneth Ginbuge and Dr. Anthony Rostain, at University of Pennsylvania

1. *Competence*
2. *Confidence*
3. *Coping*
4. *Control*
5. *Character*
6. *Connection*
7. *Contribution*

[The 7 Cs of Resilience - YouTube](#)

The 7 C's of Resilience developed by Dr. Kenneth Ginborge and Dr. Anthony Rostain, at University of Pennsylvania

1. *Competence: Handling a Task or situation effectively, also about specific skills and personal passion for something.*
2. *Confidence: Is the belief in one's own abilities & derived from competence but also comes from encouragement & opportunities for experiencing it.*
3. *Coping: Skills and strategies to deal with stress and challenges. It is one's ability to overcome the struggles of Life.*

The 7 C's of Resilience developed by Dr. Kenneth Ginburge and Dr. Anthony Rostain, at University of Pennsylvania

4. **Control:** *Is knowing that you have at least some control over your life and environment. And knowing that your decision and actions make a difference to the outcome it also refers to taking responsibility.*
5. **Character:** *this aspect is about a solid set of morals and values and about a caring attitude towards others.*
6. **Connection:** *knowing one is not alone in times of struggle creates a solid sense of security as close ties to family community or whatever group one is in a foundation for developing creative solutions.*
7. **Contribution:** *This is about understanding the importance of personal contribution in the world and it can serve as source of purpose e and motivation the experience of offering one's own help it makes it easier to ask for help when you need it yourself.*

Activities for Resilience

- Building a structure with playing cards.
- Think of a tough challenge you faced in the past 1 years.
